Penglong Li
China

Dear Penglong,

On behalf of BI Norwegian Business School (BI), I would like to personally congratulate you on receiving the MSc International Scholarship.

The MSc International Scholarship is reserved for top students from around the globe who have strong records of academic achievement. We are pleased to recognise exceptional academic performance with a scholarship which will allow you to continue to focus on your studies in your master's programme.

BI prides itself on supporting and celebrating student success. Last year, in recognition of BI's 75th Anniversary, we launched two initiatives for MSc students: Dean's List and Master Merit Society. We hope you will continue to excel academically and achieve Dean's List standing. If you do so you will be eligible for membership in the Master Merit Society, a student society which recognizes your academic performance and provides opportunities for you to interact with the business community and faculty.

Thank you for choosing BI Norwegian Business School for your graduate studies. We are delighted you will be joining the MSc Class of 2019-2021.

Congratulations once again. I look forward to officially welcoming you to your master studies at the Matriculation Ceremony in August.

Kind regards,

Janicke Rasmussen, PhD
Dean, Master
