

# BI Internship Master / 2020

Created 06.01.2020 by **DNB Bank**  
**ASA**(<https://www.dnb.no/bedrift>) | Banking

 Oslo  Deadline: 16.02.2020  4 places

DNB is Norway`s largest financial services group and one of the largest in the Nordic region in terms of market capitalization. The Group offers a full range of financial services, including loans, savings, advisory services, insurance and pension products for retail and corporate customers.

The banking and finance industry is changing and customers` behavior in a constant development. Therefore, DNB has full focus on digitalization and business development. We would like to be the first with innovative solutions in the new digital banking business and have ambitions to become one of Europe`s leading technology companies.

## Offer description

Without change today, we are not leading tomorrow. Therefore, we need new people with new thoughts and ideas. Are you passionate about technology and have a desire to create the next thing that makes life easier for our customers? Are you curious, dare to challenge, but is also wise enough to listen? Do you want to make a difference from day one? Then it may be you we are looking for!

As a Business Analytics intern in DNB, you have the opportunity to develop your skills by gaining responsibility in various projects. We need to use valuable information about our customers in correct ways to always deliver on their needs. You will get insights to various transactions across regions and sectors, in regards to Private Customers, Corporate Customers, CSR or Group Risk-related questions. You will have the opportunity to contribute in preparing materials and analyzing pitches and transactions. We will challenge you to work both independently and in teams, to come up with important insights and recommendations that will contribute to the business area.

You will be working with people from across the entire DNB organization, and therefore gain important insight from the finance industry. Students will be given the possibility to take part in planning, coordinating and carry out activities relevant of your studies. As a BI intern in DNB, you will have many opportunities to contribute with your experience and knowledge. We appreciate applicants that asks questions and dare challenge us.

## What we offer:

DNB is offering various BI Internship positions across business areas. You will have the opportunity to gain valuable experience from one of the largest organizations in Norway and to have colleagues who are strongest within their field. We will challenge you with interesting and complex tasks, and allow you to take part and contribute to DNBs goals. You will be set to work with relevant assignments where you will be able to use your academic skills and competence. Also, you will gain important industry insights which will be valuable in the future.
